Svilengrad municipality is located in the southeastern part of Haskovo region and the Republic of Bulgaria. At its northeastern end are the slopes of the Sakar Mountain to the southwest- Eastern Rhodopes, includes parts of the Upper Thracian Lowland.

The agricultural production in the municipality is mainly aimed at growing tobacco, vineyards, cereals and fruit crops.

The municipality has a unique opportunity to be the border of Bulgaria with two neighboring countries - Turkey and Greece.

This determines its leading role in the future development of the European transport corridors connecting Western and Central Europe with the Middle East and the Far East. The history of Svilengrad dates back to the 4th thousand BC – when the Thracian tribe of Audrissi settled in its lands.

Numerous cultural and historical monuments have been found in Svilengrad proving the rich history of the city and the development of the municipality over different centuries. Here was discovered medieval Bulgarian necropolis from the 14th - 14th century. Mustafa Pasha built a bridge over the Maritsa River, which is one of the most remarkable architectural monuments in this part of Europe since the Ottoman rule. G.S. Rakovski passed through the town on the way to Tsarigrad, Here he founded a secret revolutionary committee.

The total size of the municipality of Svilengrad is 70 537.10 ha. The population is 25 792 people, of which 19 960 are in Svilengrad.

The municipality includes one municipal center and 23 villages. The Sofia-Plovdiv-Svilengrad-Istanbul railway line connecting the Republic of Bulgaria and the Municipality of Svilengrad with the European rail network is categorized as an important highway line suitable for combined transport.

The development of cross-border cooperation is of utmost importance for the municipality.
